## PROJECT

### • E-commerce Website

Built a fully functional online shopping site with product listing, shopping cart, and order management. Implemented responsive UI using HTML/CSS and added dynamic features (product filters, cart updates) with JavaScript. Designed and managed the SQL database for products, users, and order records.

### • Personal Portfolio Website

Created a personal portfolio to showcase projects and skills, featuring a responsive, mobile-friendly design.Added interactive elements such as smooth scrolling and dynamic content using JavaScript.Integrated a contact form that stores user messages securely in a SQL database.

### • Steganography System For Enhanced Security (Final Year Project)

Developed an image-based steganography tool that conceals confidential text inside images using Least Significant Bit (LSB) technique. Added AES encryption for added protection, ensuring secure and covert data transmission.
